

SUNYUlster
PRESIDENTIAL SEARCH COMMITTEE
Campus Update-March 11, 2015

To: Members of the Campus Community:

Last month, our search consultants from Isaacson, Miller met with faculty, students, staff, administrators, board members, community members and the search committee to gain an understanding of SUNY Ulster, the opportunities and challenges facing our next leader, and the ideal qualifications and experience our presidential candidates will have. That information was compiled into a comprehensive position profile that has been approved by the search committee and is available on the college website [Presidential Search](#).

The committee also met with SUNY Chancellor Nancy Zimpher who expressed support for the College and encouraged the search committee to consider a diverse pool of candidates. Our search consultants are now engaged in an intensive recruitment effort, contacting potential candidates around the country to garner interest in and suggestions for the search with the purpose of building a deep and diverse pool for the search committee's consideration. This phase of the process is highly confidential, but we will continue to provide periodic updates on the status of the search. The search committee welcomes any suggestions you might have with regard to potential candidates or others who might have suggestions. Please contact msharoff@imsearch.com with those suggestions.

William Spearman
Chairman of the Board of Trustees & Chair of the Presidential Search Committee
