

Certified Green Production Technician

The Certified Green Production Technician (CGPT) is the combination of the Certified Production Technician (CPT) with the addition of Green Production. The purpose of the CPT program is to recognize, through certification, individuals who demonstrate mastery of the core competencies of manufacturing production at the front-line (entry-level through front-line supervisor) through successful completion of the certification assessments.

The CPT program consists of five individual certificate modules: Safety; Quality Practices & Measurement; Manufacturing Processes & Production; Maintenance Awareness; and Green Production.

Candidates must earn all five certificates to receive the full CPT certification.

Suggested Prerequisite: 9th Grade Mathematics and 10th Grade English

Course Cost: \$1400
